NEW! Wilderness® Spinning Rods

The multi piece 'Travel Spinning' models; the 9' 5pc and 11' /9' 6pc were launched mid season in 2006 and proved to be incredibly popular. Their compact size and the dedicated travel tube made them a perfect choice for the mobile angler. Now joining them for 2007 are three two section models at 9', 10' & 11' and two three section specials; a 10' lure and 12' bait/lure. All have a modern tippy action that loads sweetly into the power zone maintaining cushion all the way. This makes them great for propelling plugs and spoons plus crisp line pick if you free-line a bait or controlling via the float. We have applied high quality double leg ceramic guides on all models letting you get the best from a multiplier as well as affixed spool.
