

Saltwater Rods: Big Fish Series

These rods really clean up. (And that's where the similarities to broomsticks end.) Dominate oversized sturgeon to 800 pounds. Hoist 300-pound groupers from barnacle-encrusted wrecks. Haul in tuna, large sharks, billfish and barndoor- sized...heck, you could haul in aircraft-hangar-door-sized halibut with these beauties. Last year the charter boats, lodges and professional guides got hold of them and we've been shipping them out by the barge load ever since. With our Big Fish Series, you'll have the spectrum covered from halibut to tuna and from small live bait to large dead fish for bait and all the lures in between. All rods feature black, blue and silver diamond wraps and under-wraps over matte black blanks.
